

# Setting up your header and menu

**Category:** Header & Menu

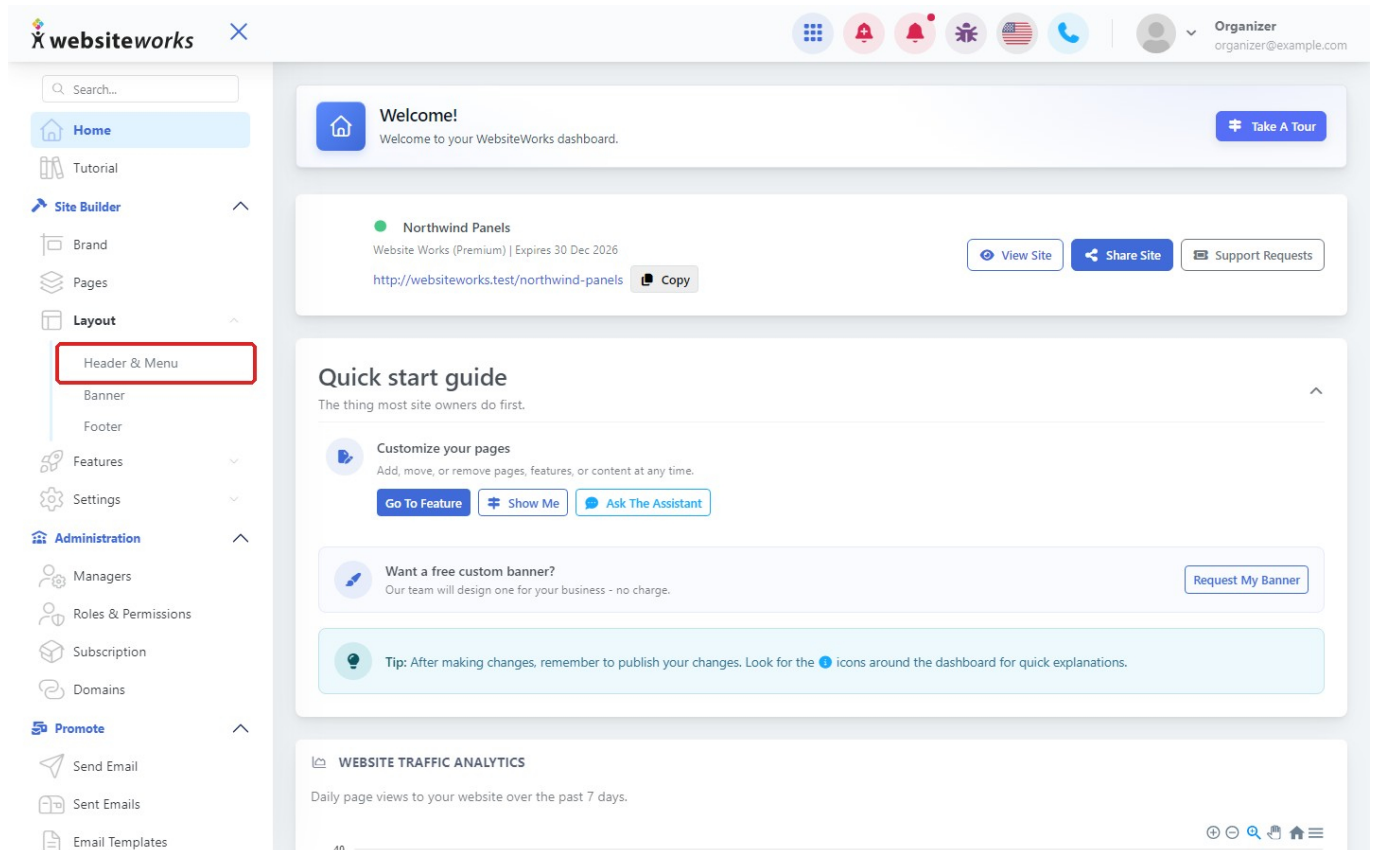

**Published:** Oct 26, 2026

**Reading Time:** 1 min

The header is the bar at the top of every page with your logo and menu.

## Step 1: Open Header & Menu

In the menu, under **Layout**, click **Header & Menu**.

Click Header & Menu.

## Step 2: Choose what to show

On the **Logo & title** tab, choose whether to show your logo and site title in the header.

**Logo & title**

**Show the header on my website**  
Turn off to remove the whole header bar (logo and menu) from every page. ☒

**Logo**  
PNG or JPG, at least 70 px tall. A transparent background looks best. When you have a logo, it replaces the site name.

[Replace](#) [Crop](#) [Remove](#)  
[Use my Brand logo instead](#) [View in Brand](#)

**Size**  
Also sets the site name size when there is no logo. [Small](#) [Medium](#) [Large](#) [Extra Large](#)

**Position**  
The menu button moves to the opposite side. [Left](#) [Right](#)

**Site name (used when there is no logo)**  
Your logo is showing, so visitors don't see the site name right now.

**Show the site name** ☐

**Name to show**  
Northwind Panels

[Save changes](#)

Choose what to show.

## Step 3: Set the logo

Upload or change the logo shown in the header.

**Header & Menu**  
Everything at the top of your website in one place: logo, look and menu. [Take A Tour](#)

[Save changes](#)

Set your logo.

## Step 4: Adjust the size

Choose the size of your logo.

The screenshot shows the 'Logo & title' settings panel in the WebsiteWorks interface. The panel is divided into several sections:

- Show the header on my website:** A toggle switch is turned on. Below it, text says 'Turn off to remove the whole header bar (logo and menu) from every page.'
- Logo:** A placeholder box for the logo. To its right are buttons for 'Replace', 'Crop', and 'Remove'. Below these is a checkbox for 'Use my Brand logo instead' and a link 'View in Brand'.
- Size:** Four buttons are shown: 'Small', 'Medium', 'Large', and 'Extra Large'. The 'Large' button is highlighted with a red box.
- Position:** Two buttons: 'Left' and 'Right'.
- Site name (used when there is no logo):** Text says 'Your logo is showing, so visitors don't see the site name right now.'
- Show the site name:** A toggle switch is turned off.
- Name to show:** A text input field containing 'Northwind Panels'.

On the right side of the panel is a 'Preview' section showing a computer and phone view of the website header. The header displays the 'Northwind Panels' logo and a navigation menu. Below the preview, text says 'How visitors on a computer see your header with the full menu bar. The preview updates as you change settings.'

At the bottom of the panel is a green 'Save changes' button.

Pick a size.

## Step 5: Pick a menu style

On the **Layout & style** tab, choose **Full menu bar**, **Burger menu** or **Automatic**.

**Header & Menu**  
Everything at the top of your website in one place: logo, look and menu.

**Layout & style**

**Menu style on computers**  
Phones and tablets always use a burger menu. Choose what visitors see on a computer.

**Full menu bar**  
Every menu item is shown across the top.

**Burger menu**  
A "Menu" button opens a side panel with all your items.

**Automatic**  
Full bar while it fits, burger menu when you add more items.

You have 18 menu items. On a laptop they can wrap onto several rows, so Burger menu or Automatic will look cleaner. You can also group pages into dropdowns in Menu items.

**Burger panel color**  
Light Dark

**Preview**
