

Customizing your footer

Category: Footer

Published: Oct 26, 2026

Reading Time: 1 min

The footer is the area at the bottom of every page.

Step 1: Open Footer

In the menu, under **Layout**, click **Footer**.

Click Footer.

Step 2: Write your footer text

On the **Content** tab, type your **Footer text**, for example your address or opening hours.

Paste a link and click Add.

Step 4: Add footer links

On the **Footer links** tab, click **Add footer link**, or click **Copy my header menu** to reuse your menu.

The screenshot shows the WebsiteWorks interface. On the left is a sidebar with a search bar and a menu including Home, Tutorial, Site Builder, Brand, Pages, Layout (with sub-items Header & Menu, Banner, and Footer), Features, Settings, Administration, Managers, Roles & Permissions, Subscription, Domains, Promote, Send Email, Sent Emails, and Email Templates. The main area has three tabs: Content, Footer links (active), and Style. The Footer links tab contains a 'Footer links' section with a 'Show links' toggle and two buttons: '+ Add footer link' and 'Copy my header menu'. Below this is a blue informational box stating that footer links should be short and useful. To the right is a 'Preview' section showing a mobile view of the footer. Below the preview is a list of 'Pages not in the footer' with 18 items, including Markets, Products, Azdel, Stock Papers, Stock Vinyls, and Ceiling Tiles, each with an '+ Add to footer' button.

Add footer links.

Step 5: Choose colors

On the **Style** tab, pick a **Footer background**, or click **Copy header colors**.
