

Creating a photo album

Category: Photo Albums

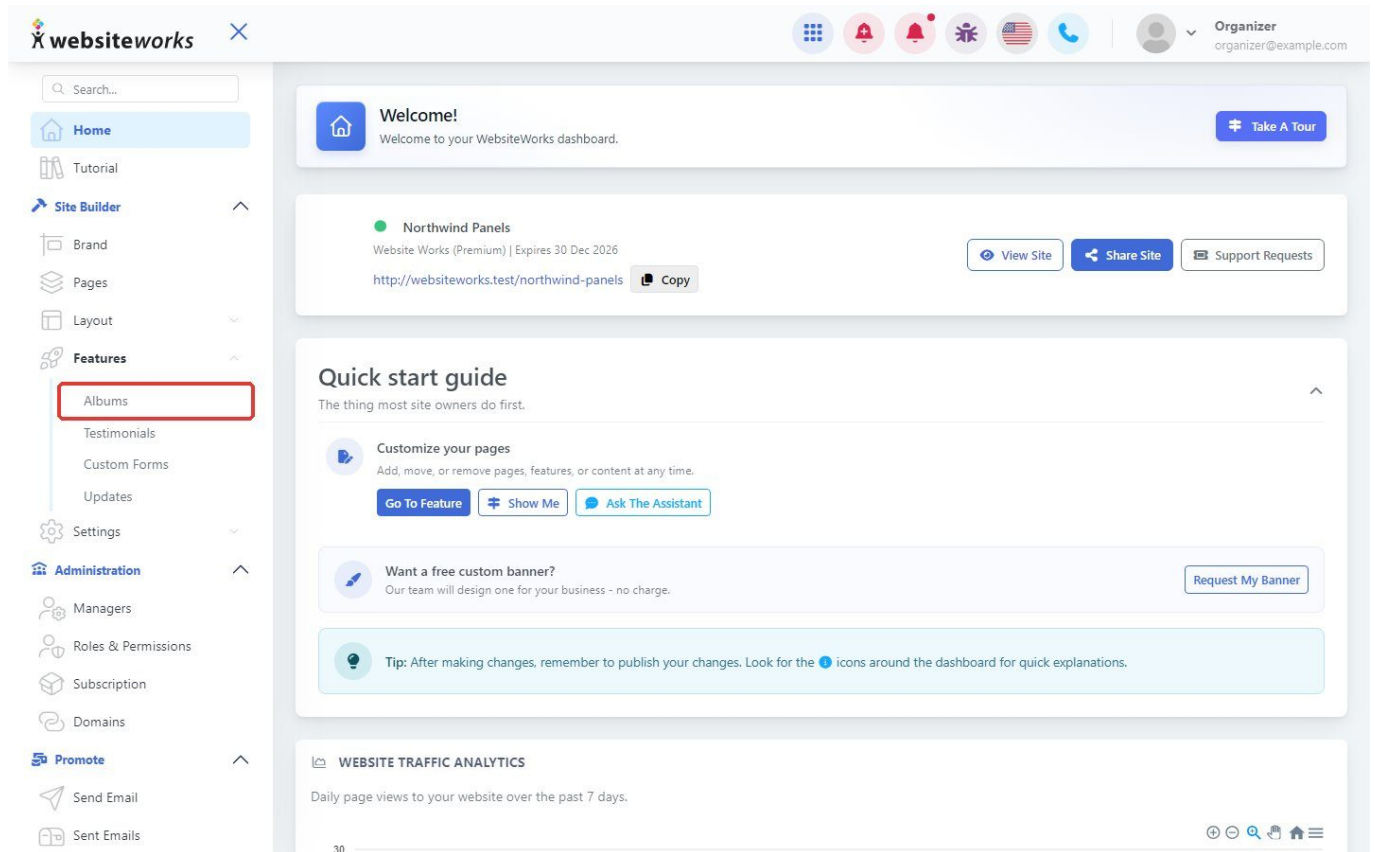

Published: Oct 26, 2026

Reading Time: 1 min

Albums let you show your photos on your website as a gallery or slider.

Step 1: Open Albums

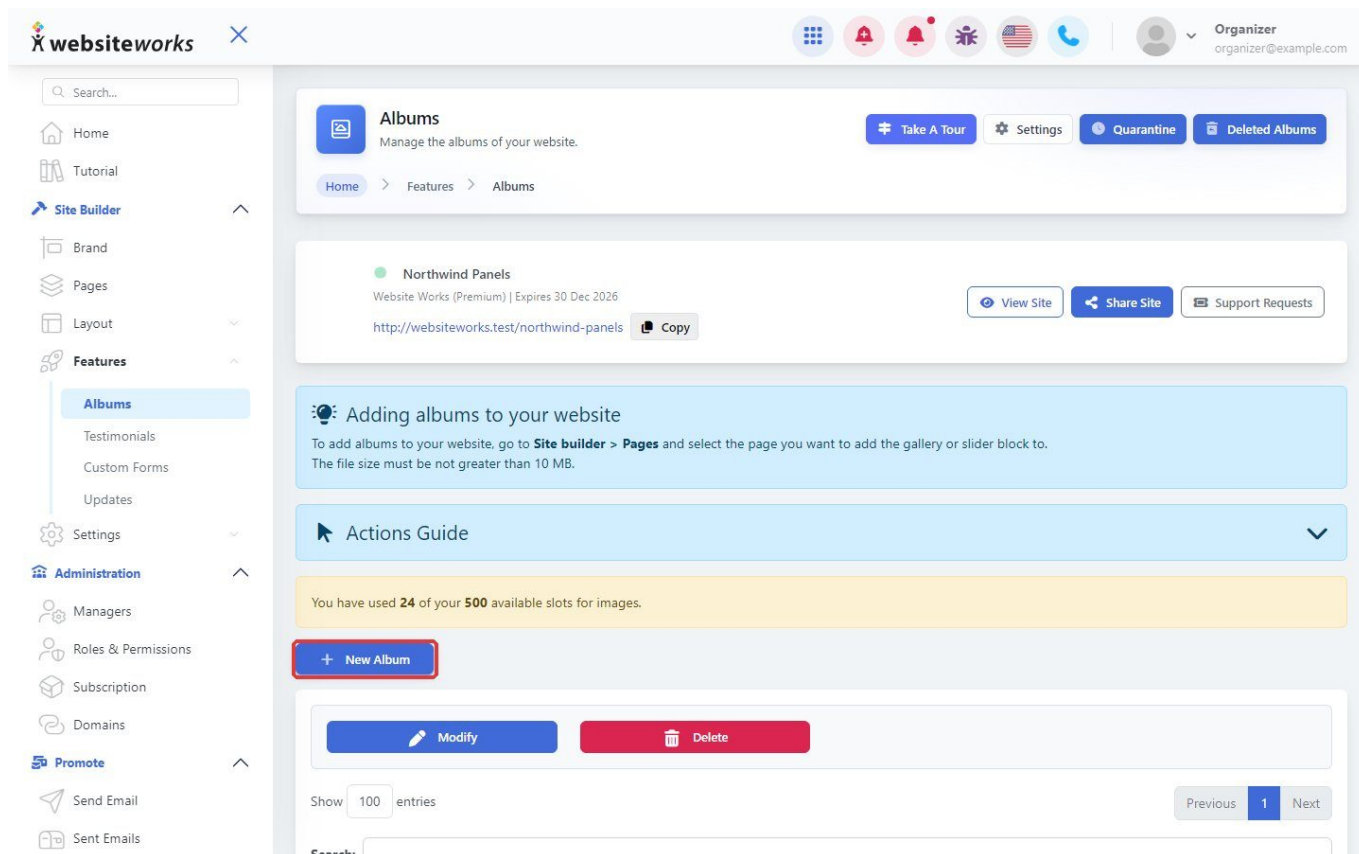

In the menu, under **Features**, click **Albums**.

Click Albums.

Step 2: Click New Album

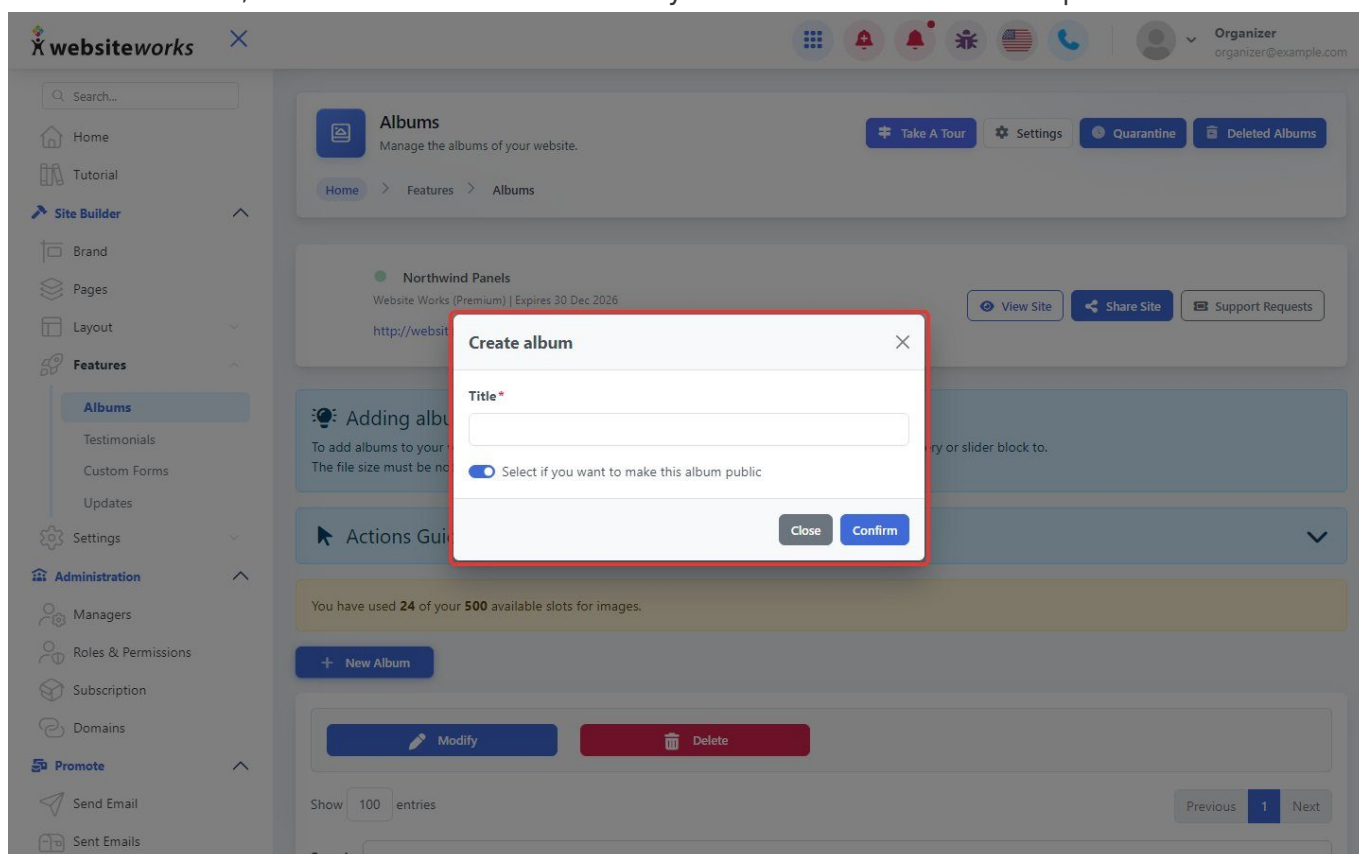

Click **New Album**.

Click New Album.

Step 3: Name the album

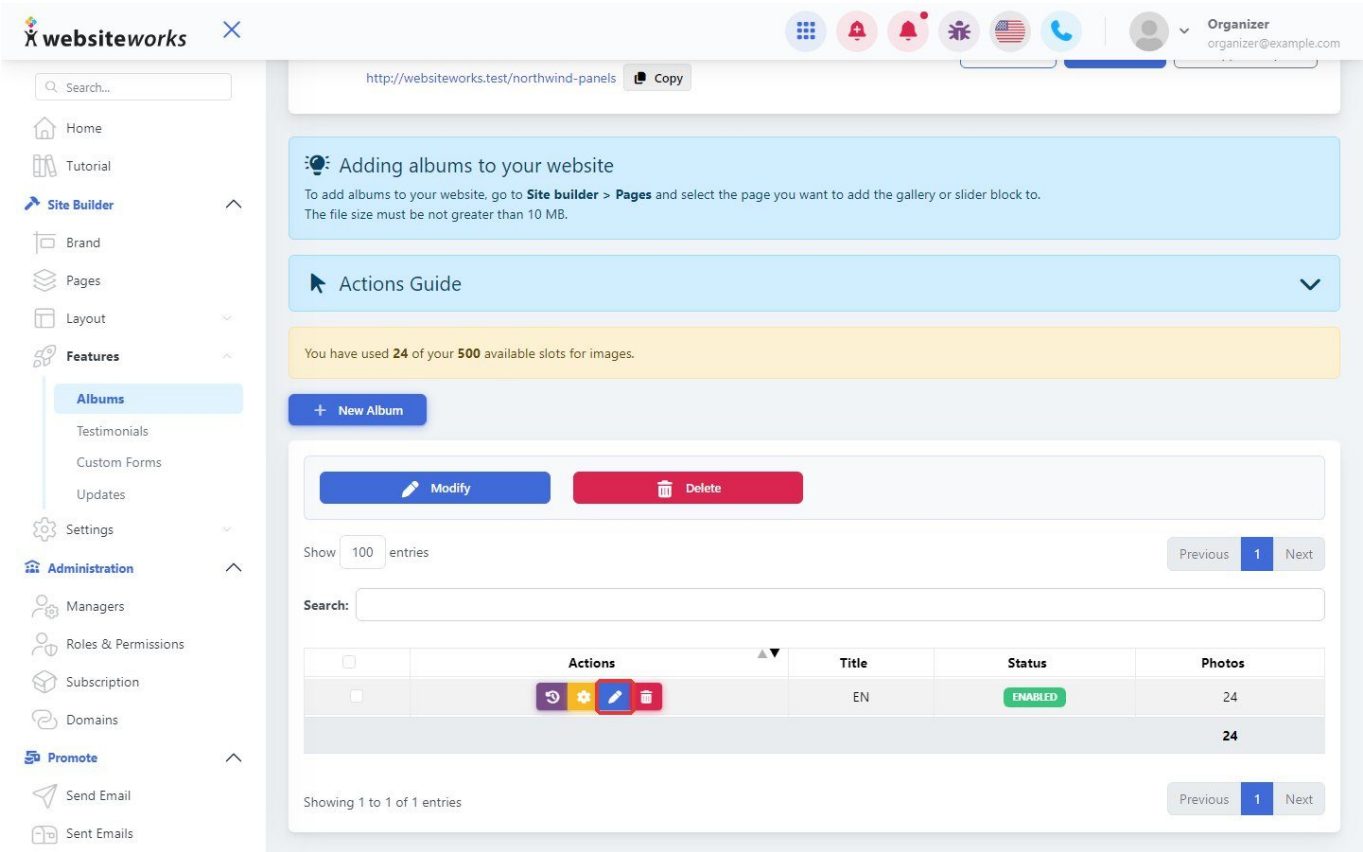

In **Create album**, enter a **Title**. Check the box if you want to make this album public. Click **Confirm**.

Name your album.

Step 4: Open the album

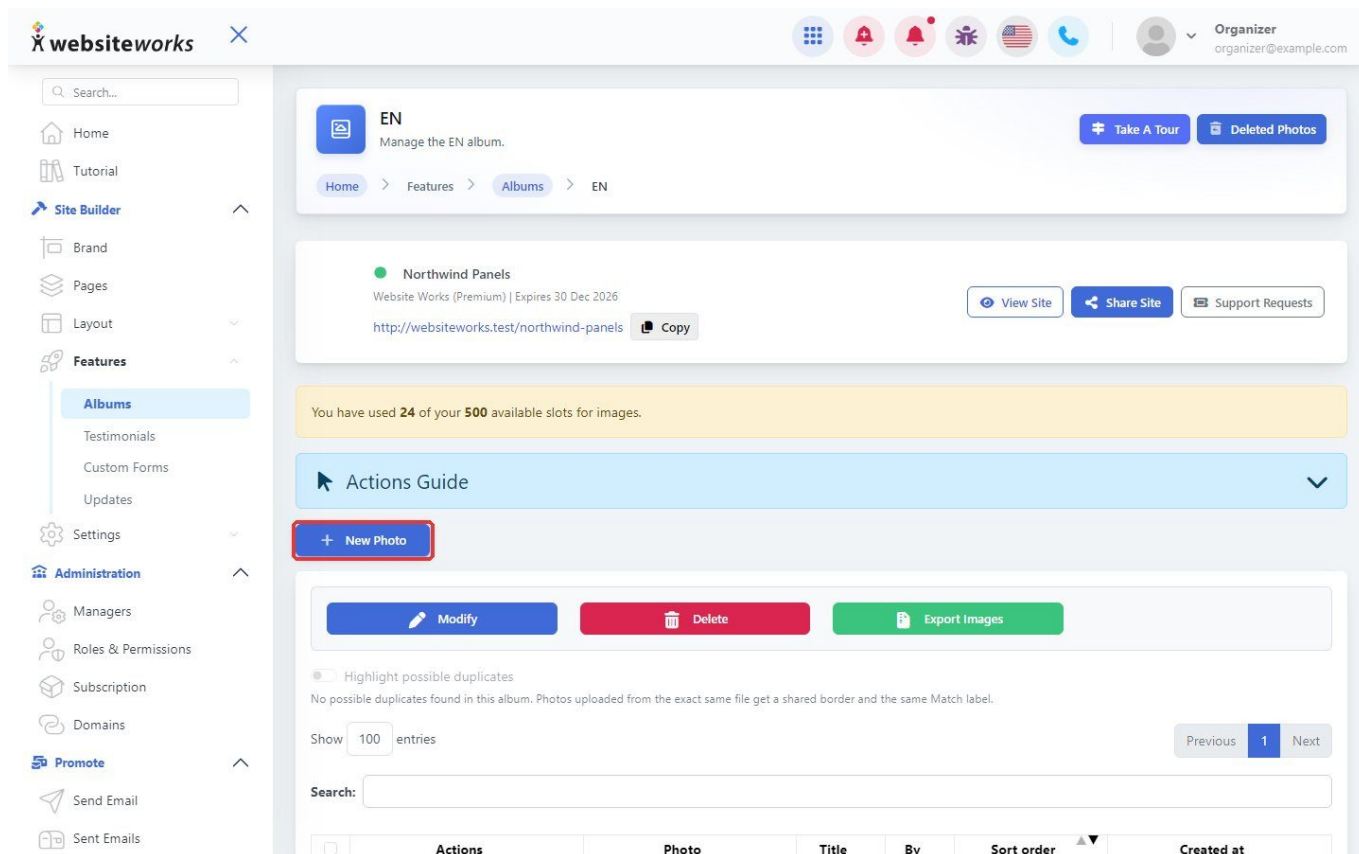

Click the button next to your album to manage its photos.

Open the album.

Step 5: Add photos

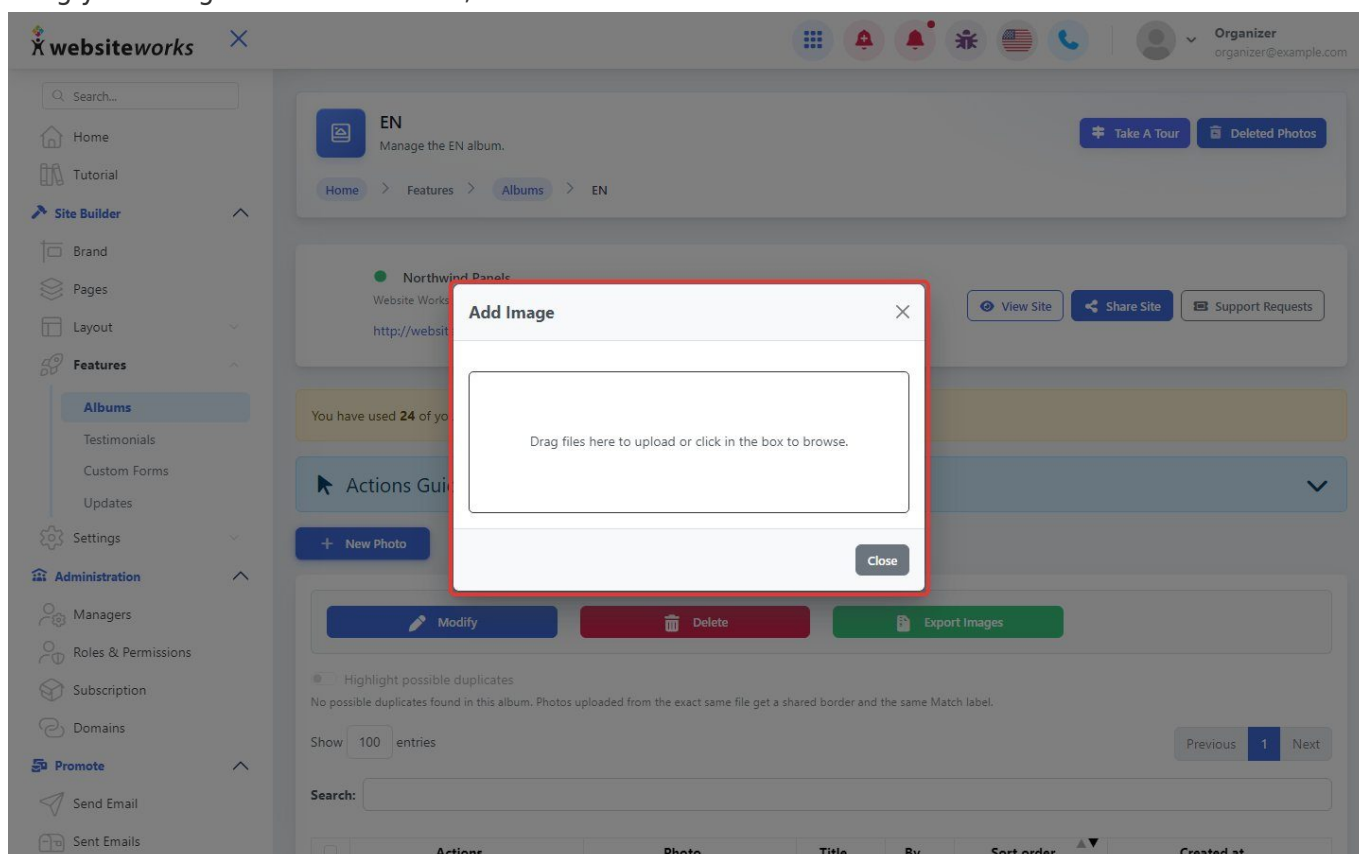

Click **New Photo**.

Click New Photo.

Step 6: Upload your images

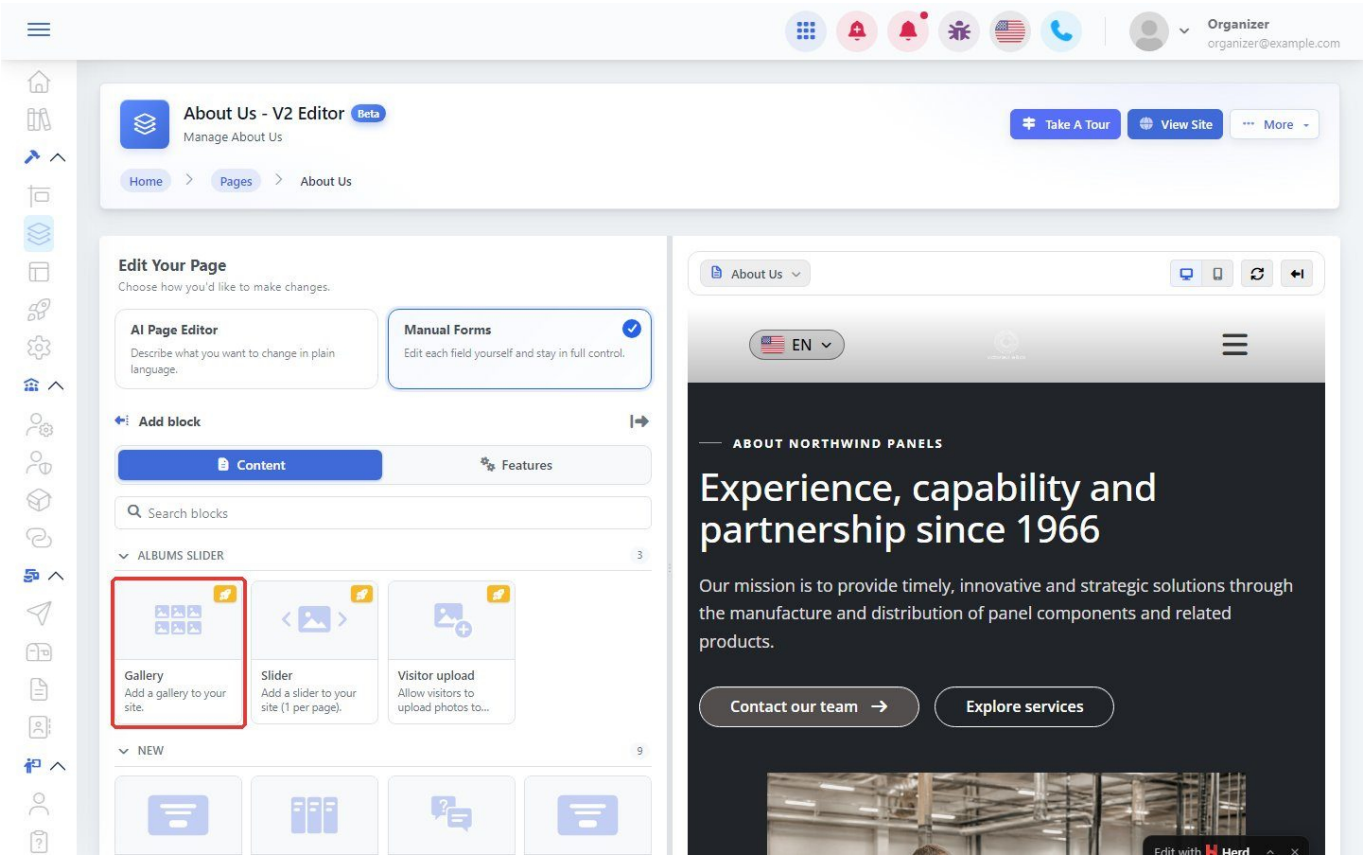

Drag your images into the window, or click to choose them.

Drop your photos here.

Step 7: Show the album on a page

Open a page with **New Editor**, choose **Manual Forms**, click **Add Block** and pick **Gallery**, **Slider** or **Visitor upload**. Choose your album and click **Publish Changes**.

Add a Gallery block.
